

Advanced C11-S & C11-SGT Telescopes

Introducing the most affordable and portable 11" Schmidt-Cassegrain telescopes on the market.

The Advanced Series just got bigger. Celestron is proud to announce the Advanced Series C11-S and C11-SGT. With the heaviest component under 30 lbs, this telescope won't break your bank or your back.

CG-5 Advanced Mount – Precision engineered for stability

- Heavy-duty tripod with ultra-sturdy 2" stainless steel legs, center brace and accessory tray for superior stability, rigidity and vibration dampening
- Precision worm gears pre-loaded with ball bearings on both axes for extremely smooth tracking and slewing
- Large shaft and bearings and substantial base castings for additional stability

Benefits of Advanced Series GoTo

- Proven NexStar® computer control system used in our most sophisticated GoTo telescopes
- Easy step-by-step alignment process is great for beginners and convenient for advanced users
- 40,000+ programmed objects for simplified navigation. Beginners can take advantage of the tour feature which highlights the most popular objects in the sky. Advanced users can find any object based on type, catalog or constellation
- Automatically tracks any celestial object as it moves through the night sky
- Hibernate feature maintains alignment while scope is powered down

Advanced Features for Astrophotography

- Programmed polar alignment feature walks you through the steps of aligning the telescope to the Earth's axis which is required for astrophotography
- Autoguider Ready – mount has a designated autoguider port for long exposure astrophotography
- Precise GoTo ensures that hard to find objects are centered in the field of view with higher accuracy

Expandable GoTo Systems – Optional accessories

- GPS compatible for even quicker and easier setup, Advanced GoTo models can also be upgraded to GPS scopes with the optional CN16 GPS Accessory Kit (#93966). Kit contains the CN16 GPS module, bracket and holder, and Auxiliary Port Expander
- NexRemote remote control software (#93710) allows alignment and operation of Advanced Series GT telescopes from a PC or laptop
